

SOC 2 Security: Your Enterprise-Grade Advantage to Scale Sales

Benefits for Your Corporate Clients

Enterprise-Grade Data Protection

Verified controls safeguard sensitive information in rewards programmes and procurement data.

Simplified Vendor Due Diligence

SOC 2 accreditation accelerates procurement approvals and reduces the need for internal security reviews.

Secure 'Punch-Out' Integration

Enables real-time, compliant shopping directly from the client's existing procurement systems.

FullWorks maintains SOC 2 compliance, providing third-party assurance that customer data is managed to the highest security standards. This accreditation streamlines the procurement process, ensures GDPR alignment, and transforms your digital shops into a trusted extension of a corporate client's ecosystem.

Strategic Advantages for Merchandisers

Win More Enterprise Tenders

SOC 2 is a powerful differentiator that builds instant credibility during the RFP process.

Faster Sales Cycles

Simplify security questionnaires using the "audit once, report many" approach to close deals quickly.

Increased Client Retention

Embedding secure workflows makes your shops a "sticky," low-risk extension of the client's ecosystem.
